

### Alternative Scoring at Championships

**From: Fast 4 Set; Short Set; and 6-game, 8-game and 10-game Pro-Set**  
**To: Best of 2-out-of-3 Tiebreak Sets**

Weather or other unforeseen circumstances may force the use of different scoring formats during a championship event.

Use the following conversion chart to convert a Fast4 Set, Short Set or Pro Set to either Best of 2 tie-break sets with a Match/Set Tie-breaker. The conversion will be used to enter converted match results into TennisLink, as the system will not accept two different formats in one event.

TennisLink does not currently accept Fast4 or Short Set format. If this format is used, it must be converted to determine team standings.

In the event of a tie in team standings, the converted matches will be used in calculating sets lost and games lost. *The TL Champs standings will be the official tiebreaker.*

If you are certain of converting the entire event to a different format and have not played a single match, contact the TennisLink Team for assistance in changing the format within TennisLink. This would involve rescheduling all matches.
